Question 1

Neither of the text is an imaginary story.Text 1 is a factual news report and Rext 2 is a factual legal document.

Question 2

My hobby is cooking and baking. I fell in love with being in the kitchen because it lets me be creative and try new things. Cooking allows me to experiment with savory meals, while baking lets me create sweet treats that bring joy to others. I enjoy following recipes, but I also like to add my own twist to make dishes unique. Cooking helps me relax after school because focusing on ingredients and steps calms my mind. Baking, especially cakes, cookies, and bread, makes the whole house smell amazing. I like cooking traditional meals for my family and baking desserts for special occasions. Sharing the food I make with friends and family is the best part, because I can see how much they enjoy it. On weekends I often try new recipes I find online or in cookbooks. Both cooking and baking have taught me patience, measurement, and time management. For me, cooking and baking are more than hobbies. They are a way to show love, bring people together, and create happy memories through food.

Question 5

I live in a flat with my family. Although our apartment features two bedrooms and a living room, it often feels crowded when our relatives visit; nevertheless, I enjoy their company. Outside, we have a beautiful garden filled with flowers. While I used to own a computer, it unfortunately no longer works. On weekdays, I return home at five o'clock to have lunch, complete my homework, and get ready for bed. Despite the occasional lack of space, I consider myself very lucky to live with my sibling and parents.
