REPORT ON A CV WRITING AND INTERVIEW SKILLS WORKSHOP

1. Objectives of the Workshop

The main objectives were to teach Grade 11 and 12 learners how to write a professional CV, how to prepare for job interviews, and how to apply for learnerships and bursaries.

2. Duration

The workshop took place over two days, from 08:00 to 14:00 on 15 and 16 March 2026.

3. Main Highlights of the Workshop

The facilitator explained the correct CV format and common mistakes. We practiced writing our own CVs on computers. A mock interview session was held, where learners answered typical questions. We also received a list of websites for bursaries and jobs.

4. Lessons Learned

I learned that a CV must be short, neat, and honest. I also learned to make eye contact and speak clearly during interviews. Many learners did not know how to email a CV before this workshop.

5. Challenges

There were not enough computers for everyone, so we had to share. Some learners arrived late, which meant we missed the first session. Also, the Wi-Fi was unstable during the online application part.

6. Recommendations

For future workshops, I recommend that more laptops be provided, transport be arranged for learners from far areas, and the Wi-Fi be tested before the session .
